# ARK

Animals Receiving Kindness

Families facing domestic violence often have pets that experience abuse as well. Concern for their pet's safety can prevent survivors from leaving an abusive situation because they are afraid their animals will be injured or even killed.

Help remove this barrier for families. Help build the First Step ARK, a spacious heated building with an indoor and outdoor play area, which will provide an on-site safe haven for pets. This will enable families to leave their abusive environment and begin the emotional healing process with the loving support of their pets safely close by.

## The Mission & Vision

The **mission** of the ARK is to support the clients of First Step by providing a safe haven for their beloved pets on the property of the First Step domestic violence shelter. This service enables our clients to leave the abusive environment and begin the emotional healing process with the loving support of their pets close by and the peace of mind knowing their treasured animal companions are also safely removed from the abusive environment.

The ARK will be a spacious, heated building adjacent to the temporary housing facilities for families staying at First Step. The facility will include:

**Four doggie dorms** approximately 4' wide X 10' long, each with access to a fenced run area.

**Three cat condos** in an approximately 18' X 18' room containing a variety of cat condos and toys. Each cat will be housed in a large "play pen" cage.

**A pocket pet place** specially designed for small pets, such as gerbils, bunnies, hamsters and birds.

**An intake area including a wash station** to house a new arrival animal until it has been examined by a veterinarian.

**An inside and outside play area** for family interaction with pets.

**A resource center** to house donated supplies for pets and residents such as food, diapers, school supplies, clothing.

## How can you help?
